Additionally, Ken Bieri has indicated that the proposed zoning district line must contain a metes and bounds description. The Department is currently unable to prepare a rezoning exhibit. Please forward plans with this additional information at your earliest convenience to ensure a Council introduction and June 7 Planning Board hearing. Please let me know if you have any questions.

Thanks,  
Antoni

Steve,

Thanks for the quick response. Please provide site capacity calculations for each zoning district with associated acreage and resources at your earliest convenience.

Thanks,  
Antoni

Antoni,  
36.87 acres are proposed to be rezoned with this plan from OR to CR.
