The Honorable Harris B. McDowell
Legislative Hall
P.O. Box 1401
Dover, Delaware 19903

Dear Senator McDowell:

Based upon our recent conversation, I am aware of a typographical error that I made in drafting the epilogue language regarding the Stoltz development site in Greenville off of Buck Road. In the last sentence the word "after" should be replaced with the word "before". This reflects the need to have the input from the public through the New Castle County process to occur before we issue an entrance permit or any related approvals.

Please let me know if you have any questions regarding this epilogue or DelDOT's roles and responsibilities in the land use process.

Sincerely,

A handwritten signature in cursive script that reads "Carolann Wicks".
